He realized that this was his calling because he could let his hands speak for themselves. With this amazing talent he has soared to high places early on in his career, and exceeded other people expectations of him. He has shown how much passion he has for becoming a DJ and a Producer.

In addition, he has been involved in various DJ communities where he can spin with some the best DJs, network and compete in DJ competitions; such as the USA DMC DJ battle where he was the 1st deaf DJ to participate, and Winter Music Conference, where he placed 4th. Although he has won a DJ battle which he obtained a 1st place is definitely one of his goals that he is working towards accomplishing more. He will not stop until he has done so, which shows his determination.

In addition he has also traveled to share and inspire the community through his testimony at the American Sign Language workshop in Texas, Jamaica, and the youth at M.S. 88 in Brooklyn, NY.
